

INFLATABLE SNOW GLOBE

This unit is NOT a bounce house

REQUIREMENTS:

- 1 - 3 Attendants (Inside Entrance, Outside Front & Photographer)
- 1 Dedicated 20 amp circuit within 100 ft. - CC&E will provide a heavy gauge extension cord.
- 20L x 15W x 11.5H
- Max 4 Participants in globe at one time.
- Weight Maximum: 175 lbs. per person
- If indoors, ground floor entry only.
- Recommended Participant Ages: All ages

PLEASE...

- No dog piling, wrestling, flips or karate kicks.
- Do not: bounce off side walls or entrance way.
- Do not enter Inflatable Game unless Operator is present.
- Operator can terminate play for not following rules.
- Participants should not engage if they have any of the following conditions: Current or previous injury to the back or neck, chronic knee or other joint conditions.

OPERATOR AWARENESS:

- Wind conditions must be less than 15 mph; if wind gusts begin, deflate immediately.
- If outdoors, the temperature must be above 45 degrees.
- Adult Operators are required for safe use of Inflatable Games.
- Operator should point out and make participants aware of the posted warning labels and safety rules.
- Operator should remove all debris from the area prior to allowing participants on the Inflatable Game.
- Operator should watch for signs of deflation such as sagging, excessive wrinkling or distortion. If these are observed, they should ask participants to exit the Game safely and remain calm, as there is no danger.
- If the unit becomes wet, dry the wet area before continuing to utilize the arena.
- IMPORTANT - NEVER RUN, LEAP, SKIP, TUMBLE OR BOUNCE OFF ANY INFLATABLE ONTO FLOOR OR GROUND. DOING SO CAN CAUSE SEVERE INJURY!
- Silly string, foam or like products are not permitted in any event where Inflatable Games are being used. Henna is not allowed on inflatables.
- Duct tape may not be used to secure electrical cords or to post rules on games; consult CC&E for alternatives.

EMERGENCY EXITING:

- If power goes out: DO NOT PANIC; have participants sit down immediately; calmly direct and assist participants to the exit; the designed slow deflation allows plenty of time to exit the unit; DO NOT open the air vents, this will cause rapid deflation.
- Attendant should: a) check that blower is plugged in; b) check to make sure blow tube is attached to blower; c) check to see if zipper is fully zipped.
